CREAM OF NEWS.

A Grave Desecrated.

Just outside the city limits on the Fairview road, is a graveyard in which was buried in a vault many years ago the remains of the first wife of Dr. Charles Shackelford, formerly of this city but now of Memphis. The stone vault has recently been broken open and the skeleton of the departed lady exposed to full view. The skull and other bones can be plainly seen and are rooted about by hogs and hound dogs by children every day. It is said a number of boys at one time amused themselves by placing the skull on the head of a pole and carrying it around the neighborhood. It ought to be somebody's business to look into this matter and have the house re-interred.

A Serious Cutting Affair.

At a festival at the colored church on the Hopkinsville and Princeton Pike, five miles from the city, Saturday night, Jim Dade cut Harry Wright in three places, inflicting serious wounds. Both parties are colored. The trouble was caused by Wright's stopping on Dade's toes. Wright made an apology for what he had done which was not accepted but answered by a blow from Dade's fist. Wright then knocked Dade down and as he (Dade) arose he did the hacking. Dade made his escape and officers are hunting him. From our informant we learned that Wright is still alive.

The Republican Ticket.

The Republican Convention met yesterday and organized by electing A. H. Payne, col. chairman and Benton Brown, secretary. Only 12 of the 21 districts were represented. The anti-Lauder delegation in Hopkinsville No. 1 was seated and Bob Lauder, the colored candidate, announced that as he had been ignored he would no longer be a candidate. The Convention then in short order unanimously nominated E. H. Clark, of Bellview, for representative and Dr. J. W. Lillard, col., for coroner. Delegates were appointed to the State Convention on the 4th and the meeting adjourned after E. H. Clark had made a speech of acceptance.

Dead in a Cave.

Geo. Hally, a colored boy 16 years of age, was found dead in a cave four miles east of Fairview, in Todd county, one day last week. An inquest was held and a verdict returned that he died from foul air. It is supposed he went into the cave to sleep where it was cool and was killed by the impure air with which the cave was poisoned.

The Steward of the Western Asylum has been instructed by the Governor to purchase no supplies from business establishments in which Commissioners of the Asylum are interested. This will probably lead to the resignation of several Commissioners who are merchants and business men and who would rather resign than be discriminated against in business, under a close construction of the law which prohibits Commissioners from having "contracts" with the Asylum.

Mr. Calvin G. Layne recently purchased a fine Shropshire buck, registered No. 219, and a ewe of the same stock, registered No. 215, and will in future devote his time to the raising of fine sheep, hogs, cattle, mules and fancy and high bred horses. Instead of wheat and tobacco, on his excellent farm a few miles east of the city.

Lon Howard, who was sent to the Hopkinsville insane asylum several years ago, immediately after having been acquitted of a charge of murder on the ground of insanity, has been declared cured and released from the asylum. He returned a few days ago to his home at Utica. Lon was a giant when he committed the crime of murdering old man Smith, and is now more gigantic than ever, weighing 255 pounds.—*Owensboro Inquirer.*

The Clarksville Tobacco Leaf sent out letters of inquiry in every part of this tobacco district and received reports from which it draws the following conclusions: "Except in a few instances the returns have been made in acres. Omitting the reports where the per cent. is stated instead of the acreage, we find that within the area embraced in these reports there were planted last year 19,740 acres of tobacco; that an average is 15,802 acres, and that the present planting is 12,295 acres, making the present planting about 65 per cent. of last year."

In the Republican convention in the two city precincts Saturday the prepared states were put through without serious opposition. At No. 2 the convention met, appointed instructed delegates and adjourned in the shortest possible order. At No. 1 H. Lander appeared in person and asked for instructions, but it became evident early in the fight that the colored candidate did not have the ghost of a chance in his own precinct. His adherents were voted down on every proposition and an unopposed delegation of anti-Lander men appointed. This caused Lander's followers to bolt and they held a second meeting after the first had adjourned and appointed delegates instructed to vote for Lander for representative.

Obstructing Streets.

"And once more we would like to remark that the ordinance relating to freight trains blocking the thoroughfares of the city and fixing a penalty for its violation, is never enforced. Has the L. & N. railroad a clear title to Hopkinsville?"

The above article appeared in the Daily New Era of the 25th inst., and is calculated to mislead the public and do an injustice to the police force of this city as well as the L. & N. railroad. My men are instructed to enforce the ordinance referred to and so far as my information extends, have done so. No complaint has been made to me on the subject by any individual. If the author of the article will designate when and where the ordinance is violated, his complaint will receive immediate attention. In justice to the railroad, I desire to say that its employees yield a cheerful obedience to the ordinance and do not to my knowledge obstruct the principal streets for the length of time allowed by law.

A Big Barbecue.

The distillery of Orrin Henderson, near Pilot Rock, was burned Saturday night. The loss was \$3,000; insured for \$2,000. It is believed that the fire was of incendiary origin, though the particulars have not been learned.

Progress.

It is very important in this age of vast material progress that a remedy be possible to the taste and to theory, easily taken, acceptable to the stomach, and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

CHANGE OF PRESIDENTS.

Maj. S. R. Crumbaugh Resigns The Presidency of the First National Bank.

A representative of the Kentuckian called upon Maj. S. R. Crumbaugh yesterday to interrogate him concerning his resignation of the presidency of the First National Bank. In answer to questions propounded, Maj. Crumbaugh said:

"Yes, I have voluntarily resigned and leave the bank in a sound condition and on a solid business basis. We have declared a four per cent dividend and carried a snug sum to the surplus fund. The arrangement with Messrs. Geo. C. and Thos. W. Long to take charge as President and Cashier respectively on July 1st, 1889, was made last January, when it was known I no longer desired the presidency."

What are your plans for the future? the reporter asked.

"I have purchased near Gordonsville in the Shenandoah Valley of Virginia at the foot of the southwest range of the Blue Ridge mountains, a magnificent stock farm and my intention is to breed thoroughbred horses and Jersey cattle. The place has 750 acres, a fine residence and all necessary improvements of the best character. This is the result of negotiations that have been pending for a year past."

Has this trade been concluded since you failed to secure the Collectorship?

"Yes, but the investment had been determined upon, though I should not have moved my family to Virginia, of course, if I had been made Collector, but would in that event have had the business conducted by other parties."
